Re: Savella

Effective immediately:

Savella[®] will move to the non-preferred side of the PDL as a step 7. A failed trial of Savella[®] will need to be seen prior to obtaining a step 8 product for a fibromyalgia diagnosis; however, a trial will not be required for needing a step 8 product for a seizure diagnosis.

Dosing limits will still apply. Dosing limits will allow 2 tablets per strength per day and a maximum daily dose of 200mg.
