Re: MaineCare Claims (Update 7/6/12 Notice)

The Department has previously notified Pharmacy Providers in a provider newsletter on 7/6/12 that potential claim adjustments may be seen in the 7/25/12 pharmacy remittance. In the previous announcement MaineCare stated;

“that some claims may have been inadvertently tagged in the financial system. To correct this issue, pharmacies will potentially see a reversal and resubmittal of these claims in question within the remittance. The reversal and resubmittal is just for internal identification of the claims and will still process as they originally paid when first submitted.”

Since that announcement the Department has identified that the claims in question may be spread over two separate remittance cycles and appear in the 7/25/12 and the 8/1/12 remittances.

The claims involved are a small subset and do not include all providers.
